Threatened – any species which is likely to become an endangered species within the foreseeable future throughout all or a significant portion of its range.

Candidate – plant and animal taxa considered for possible addition to the List of Endangered and Threatened Species. These are taxa for which the Service has on file sufficient information on biological vulnerability and threat(s) to support issuance of a proposal to list, but issuance of a proposed rule is currently precluded by higher priority listing actions.

Critical Habitat – for listed species consists of: (1) the specific areas within the geographical area occupied by the species, at the time it is listed in accordance with the provisions of section 4 of the Act, on which are found those physical or biological features (constituent elements) (a) essential to the conservation of the species and (b) which may require special management considerations or protection; and (2) specific areas outside the geographical area occupied by the species at the time it is listed in accordance with the provisions of section 4 of the Act, upon a determination by the Secretary that such areas are essential for the conservation of the species.

^{*} Endangered – any species which is in danger of extinction throughout all or a significant portion of its range.

[†] If a Parish is not listed here, there are no known occurrences of a threatened, endangered, or candidate species, or their critical habitat, for that Parish.

THREATENED AND ENDANGERED SPECIES

MAMMALS STATUS GENERAL DISTRIBUTION IN LOUISIANA Bear, Louisiana Threatened Entire state (Ursus americanus luteolus) Manatee, West Indian Endangered Lake Pontchartrain & tributaries on North shore; (Trichechus manatus) rare along Gulf coast Panther, Florida Endangered¹ Entire state (Felis concolor coryi) Endangered Whale, finback Coastal waters (Balaenoptera physalus) Whale, humpback Endangered Coastal waters (Megaptera novaeangliae) Whale, right Endangered Coastal waters (Eubalaena glacialis) Whale, sei Endangered Coastal waters (Balaenoptera borealis) Whale, sperm Endangered Coastal waters (Physeter catodon) Cameron and Calcasieu Parishes Wolf, red Endangered¹ (Canis rufus) **BIRDS** Curlew. Eskimo Endangered¹ Entire state (Numenius borealis) Plover, piping Threatened Coast (Charadrius melodus) Tern, interior least Endangered Mississippi River, north of Baton Rouge; Red River, north of Shreveport & Loggy Bayou (Sterna antillarum) Endangered² Entire state Warbler, Bachman's (Vermivora bachmanii) Woodpecker, ivory-billed Endangered¹ Entire state (Campephilus principalis) Woodpecker, red-cockaded Endangered Entire state except Delta (Picoides borealis) **REPTILES** Threatened (S/A)³ Alligator, American Entire state (Alligator mississippiensis) Snake, Louisiana pine Candidate Bienville, Natchitoches, Sabine, and Vernon (Pituophis ruthveni) **Parishes** Threatened Washington, St. Tammany, and Tangipahoa Tortoise, gopher (Gopherus polyphemus) **Parishes** Turtle, Kemp's (Atlantic) ridley sea Coastal waters Endangered (Lepidochelys kempii) Turtle, green sea Threatened Coastal waters (Chelonia mydas) Turtle, hawksbill sea Endangered Coastal waters (Eretmochelys imbricata) Turtle, leatherback sea Endangered Coastal waters (Dermochelys coriacea) Turtle, loggerhead sea Threatened Coastal waters (Caretta caretta)

Threatened

Pearl and Bogue Chitto Rivers

Turtle, ringed map (=sawback)

(Graptemys oculifera)

FISH

Sturgeon, Gulf Threatened Pearl River & Lake Pontchartrain tributaries

(Acipenser oxyrhynchus desotoi)

Sturgeon, pallid Endangered Mississippi River & tributaries

(Scaphirhynchus albus)

INVERTEBRATES

Mussel, fat pocketbook pearly Endangered Mississippi River

(Potamilus capax)

Mussel, Alabama heelsplitter (=inflated)

Threatened Amite River, possible in Pearl River

(Potamilus inflatus)

(Margaritifera hembeli)

Mussel, Louisiana pearlshell

Threatened

Bayou Boeuf and Bayou Rigolette drainages

Rapides and Grant Parishes

Mussel, pink mucket pearly Endangered Bayou Bartholomew

(Lampsilis abrupta)

PLANTS

American chaff-seed Endangered Allen Parish

(Schwalbea americana)

Earth fruit Threatened Winn and Caddo Parishes

(Geocarpon minimum)

Louisiana quillwort Endangered Washington and St. Tammany Parishes

(Isoetes Iouisianensis)

¹ The Florida panther, red wolf, Eskimo curlew, and ivory-billed woodpecker are presumed to be extinct in the state.

There has been no confirmed Bachman's Warbler U.S. nesting ground sighting since the mid-1960s, however, several sightings of the species have occurred on wintering grounds during the last decade. This species may be extirpated in Louisiana.

For law enforcement purposes the alligators in Louisiana are classified as "Threatened due to Similarity of Appearance." They are biologically neither endangered nor threatened. Regulated harvest is permitted under State law.
September 21, 1998
